ADMINISTRATOR'S REPORT May 2005

Subarea Health Planning Councils (SACs) Activities

- Hawaii** Hawaii County SAC reviewed the 2002 data in the most recent "Towards a Healthy Hawaii 2010" report from the Hawaii Outcomes Institute. The issues that were highlighted include stroke death rate, low birth weight babies, lung cancer death rate, unintentional injury death rate, TB incidence, motor vehicle deaths and child abuse and neglect. Discussion related to substance abuse interventions in pregnancy and organizing a meeting of providers and researchers to share information on "ICE" followed. Hypertension screening through the fire stations was discussed and reestablishing programs that operated in the past was proposed.
- Honolulu** The director of The Hawaii Outcomes Institute, Dr. Michael Hoffman presented the latest Healthy Hawaii 2010 data for Honolulu County and developed summary and relative health indicator rankings of 13 Oahu communities. Honolulu County does well on the indicators on physical activity, coronary deaths and mammograms but does not do well on the indicators on infant mortality, birth weight and diabetes. Members appreciated Dr. Hoffman's analysis and put further review of the data on next month's agenda.
- Kauai** Members reviewed testimonies submitted in support of adopting the national dental exam (SB 118) and booster seats (SB 427) and updated their Kauai H2P2 priorities. The second draft of Kauai DOT thank you letter was distributed and members will review and edit and finalize during the June 2005 meeting. A speaker from The Hawaii Outcomes Institute is on next month's agenda to present the latest Healthy Hawaii 2010 data for Kauai County.
- Tri-Isle** Tri-Isle SAC reviewed CON application 04-26 for the establishment of MRI services at Kaiser Wailuku Clinic. They began a review of the 2002 data in the most recent "Towards a Healthy Hawaii 2010" report from the Hawaii Outcomes Institute and will continue the examination of leading health issues at upcoming meetings.

West Oahu SAC and Windward Oahu SAC

West and Windward Oahu SACs continued the priority review and setting process. They discussed next steps in the school health education initiative begun by West Oahu SAC and will follow-up with DOE.

Research and Statistics:

The Certificate of Need Application Summaries and Decisions Files, Monthly SHPDA Update Reports, Web Server Hits Statistics and SHPDA Calendar web pages were updated.

The March and April SHPDA website hits statistics are not available yet.

Continued preparations for the 2004 Utilization Survey mail out.

Continued setting up our new computers and installing software.
